That's the approach that's offered by Accelerated C++, a text that delves into more advanced C++ features like templates and Standard Template Library (STL) collection classes early on. This book arguably can get a motivated beginning programmer into C++ more quickly than other available tutorials.

Amazon.com: Accelerated C++: Practical Programming by ...

Accelerated C++: Practical Programming by Example. Andrew Koenig, Barbara E. Moo. The authors are widely considered to be among the world's foremost authorities on C++. What is perhaps even more important for the purposes of this review is that the authors are not only knowledgeable, but are also great teachers: they have used the material in this book for their professional-education course at Stanford University, and their pedagogic skills show on every page.

Accelerated C++ (??)

Accelerated C++, published in 2000 by Addison-Wesley. Accelerated C++, part of Bjarne Stroustrup's C++ In-Depth Series, takes a practical approach to teaching C++ by solving problems from the get go. It's a compact book with a steep learning curve, it covers the same ground as similar books that are four times it's size, which makes it a perfect book for people who've already been programming in other languages, such as myself.

Accelerated C++ exercises | Geert Arien

Accelerated C++: Practical Programming by Example: Mike Hendrickson, Koenig, Andrew, Moo, Barbara: 0785342703535: Books - Amazon.ca

Accelerated C++: Practical Programming by Example: Mike ...

Accelerated C++ introduces a radical new approach to teaching C++. It starts with the most useful concepts rather than the most primitive ones, so the student can begin writing programs immediately. It describes real problems and solutions, not just language features. And it includes the standard library from the start.

Koenig & Moo, Accelerated C++: Practical Programming by ...

Introduction As a C++ learner myself I have stumbled across this very compacted (yet effective) self-study book Accelerated C++: Practical Programming by Example (C++ in Depth Series) written by Andrew Koenig. For learning sake I've decided to have a go at the end-of-chapter exercises and summarise my own solutions in this page.
