Essential oils are use in this medicine to treat many diseases. In a review of the last five years it was found that several essential oils with anti-inflammatory activity were isolated from 43 plants. In some cases, oils of the same genus but different species have this activity, such as the essential oils obtained from three species of genus *Origanum*, as well as three oils from three species of the *Citrus* genus, and three from the *Pimpinella* genus.

We have shown that some stilbenes isolated from *P. abies* and *P. sylvestris* have anti-inflammatory activity both in vitro and in vivo (to be published). Stilbenes are structurally related to quarcicols isolated from the bark of *Acacia tortilis*, which have shown anti-inflammatory effects in vitro (Hagos, 1989).
