Although written primarily as a home reference guide, Barron's Dictionary of Medical Terms has been valued, used, and highly praised by medical instructors, student nurses, and others in the healthcare professions. This expanded and updated edition clearly and concisely describes medical terms in language that the layman can understand.

Dictionary of Medical Terms (Barron's Dictionary of ...

Synopsis This will be like a dictionary but with medical terms arranged according to body systems and medical topics. These could be arranged around the chapters of the main text of Hutton, but with more entries. Each section will have quick reference boxes so it will be possible to look up a medical term from its common name and vice versa.

Pocket Medical Terminology: Amazon.co.uk: Hutton, Andrew ...

A good medical dictionary for the student or even as a desk reference for a physician or other medical professional. Succinct descriptions are written in relatively professional jargon, however, so possibly not the best home reference. Illustrations are sparse and two-tone ie. in black and red. Good for the price.
