This room in the hospital is the centre of the story. The real story begins way down after all characters orbiting the two young patients have been introduced.

It feels like it should have been maybe the last book in the series. If you haven't read any of the other books, like I haven't, this feels like a giant spoiler rather than a beginning. My other issues are the numerous typos and poor editing/proofreading errors, and the inconsistencies... although those were relatively minor.
