This book offer a complete simulation system for modeling groundwater flow and transport processes. The companion full-version software (PMWIN) comes with a professional graphical user-interface, supported models and programs and several other useful modeling tools. Tools include a Presentation Tool, a Result Extractor, a Field Interpolator, a Field Generator, a Water Budget Calculator and a Graphic Viewer. Book targeted at novice and experienced groundwater modelers.

Aimed at encouraging students to use research sources besides encyclopedias and the Internet, lists books in such areas as religion, women, mythology, scientists, Native Americans, African Americans, Asian Americans, and European Americans.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?"

Celebrating the sesquicentennial anniversary of the completion of the first transcontinental railroad in the United States, After Promontory: One Hundred and Fifty Years of Transcontinental Railroadring profiles the history and heritage of this historic event. Starting with the original Union Pacific/Central Pacific lines that met at Promontory Summit, Utah, in 1869, the book expands the narrative by considering all of the transcontinental routes in the United States and examining their impact on building this great nation. Exquisitely illustrated with full color photographs, After Promontory divides the western United States into three regions-central, southern, and northern-and offers a deep look at the transcontinental routes of each one. Renowned railroad historians Maury Klein, Keith Bryant, and Don Hofsommer offer their perspectives on these regions along with contributors H. Roger Grant and Rob Krebs.

The new Xam Idea for Class XII Physics 2020-21 has been thoroughly revised, diligently designed, and uniquely formatted in accordance with CBSE requirements and NCERT guidelines. The features of the new Xam Idea are as follows: 1. The book has been thoroughly revised as per the new CBSE Examination Paper design. 2. The book is divided into two Sections: Part/A and Part/B. 3. Part/A includes the following: - Each Chapter is summarised in [Basic Concepts]. - Important NCERT Textbook and NCERT Exemplar questions have been incorporated. - Previous Years' Questions have been added under different sections according to their marks. - Objective Type Questions have been included as per new CBSE guidelines. These include Multiple Choice Questions, Very Short Answer Questions, and Fill in the Blanks carrying 1 mark each. - Short Answer Questions carrying 2 marks each and Long Answer Questions carrying 3 marks and 5 marks have also been added. - At the end of every chapter, Self-Assessment Test has been given to test the extent of grasp by the student. 4. Part/B includes the following: - CBSE Sample Question Paper 2020 with complete solution. - Blueprint as per latest CBSE Sample Question Paper and Examination Paper 2020. - Unsolved Model Question Papers for ample practice by the student. - Solved CBSE Examination Papers 2020 (55/1/1), (55/1/2) and (55/1/3). - Solved sets of remaining four regions' CBSE Examination Papers are given in QR code.

["This might well be my favorite Rader-Day so far: a brilliant premise intriguingly developed, totally believable characters and a climax that took my breath away."] Ann Cleeves, New York Times bestselling author of The Shetland and Vera Series From the author of the Edgar Award®-nominated Under A Dark Sky comes an unforgettable, chilling novel about a young woman who recognizes the man who kidnapped her as a child, setting off a search for justice, and into danger. Most people who go missing are never found. But Alice was the lucky one... As a child, Alice was stolen from her backyard in a tiny Indiana community, but against the odds, her policeman father tracked her down within twenty-four hours and rescued her from harm. In the aftermath of the crime, her family decided to move to Chicago and close the door on that horrible day. Yet Alice hasn't forgotten. She devotes her spare time volunteering for a website called The Doe Pages scrolling through pages upon pages of unidentified people, searching for clues that could help reunite families with their missing loved ones. When a face appears on Alice's screen that she recognizes, she's stunned to realize it's the same man who kidnapped her decades ago. The post is deleted as quickly as it appeared, leaving Alice with more questions than answers. Embarking on a search for the truth, she enlists the help of friends from The Doe Pages to connect the dots and find her kidnapper before he hurts someone else. Then Alice crosses paths with Merrily Cruz, another woman who's been hunting for answers of her own. Together, they begin to unravel a dark, painful web of lies that will change what they thought they knew-and could cost them everything. Twisting and compulsively readable, The Lucky One explores the lies we tell ourselves to feel safe.

They told Amie it was a simple look, listen and report back mission, but from the beginning everything went wrong. She is stalked across borders, the aid workers act suspiciously, she's attacked, and abandoned in a rural African hut miles from anywhere. What has happened to her partner Simon and can she trust the charismatic Frenchman who befriends her? The discovery of an ancient tribal tradition and a group of young children to rescue, test her skills to the limit. For the first time she is prepared to kill to protect the innocent caught up in an international sex trade.
