PlayStation Move Help

YES, its a no brainer, motion control is a must in way too many VR games to be ignored, using a ds4 is usually always the dumbed down control option and also isnt the best for immersion. (you just can't play SuperHot VR with the ds4, and just look at how silly Until Dawn:ROB is when played with the ds4 verus the move controllers.) level 1

PSVR - reddit

Fear not, the PlayStation 3 Move controller is exactly what you need to get the most out of your PlayStation 4 VR experience. The PS3 Move controller will work just fine on the PS4. At this point you may be asking why you need the Move controllers. You can use a standard Dual Shock 4 and everything will work fine. However, if you have Move controllers the movement tracking is more accurate and the experience is a bit more immersive.

PLAYSTATION PS4 Move Wireless Motion Controllers - Twin Pack

You can use either the PlayStation camera, PlayStation move, or your phone as a controller (that you use like a ps move). You don't need multiple, at least one of the 3. I recommend the PlayStation move over the other two though. level 2

Just Dance 2020 (PS4) - Requirements?!?!? : JustDance

Most PSVR games do not require the Move motion controllers, but a few do - and some are better with these light-up wands. Beat Saber is a must-play Move game, while other picks like Job Simulator and Batman: Arkham VR are a lot of fun. And these are the same Move controllers that released for PS3 ages ago, in case you have them buried somewhere.
