This book is the culmination of educational know-how and systematic grammar organization acquired by the three authors from their experience actually teaching Korean to foreigners in the classroom. In focusing strictly on Korean grammar, this series represents a departure from most current integrated teaching materials, allowing foreign learners to more easily concentrate on grammar in their study of Korean. The authors have included real dialogues and illustrations to make the study of Korean more interesting, especially for those students who have heretofore felt Korean grammar to be difficult. Further, this series equally serves as a general Korean grammar reference that can be used by Korean language instructors both in Korea and abroad who regularly experience the difficulty of teaching Korean grammar first-hand.
