This book constitutes the refereed proceedings of the First International Workshop on Data Integration in the Life Sciences, DILS 2004, held in Leipzig, Germany, in March 2004. The 13 revised full papers and 2 revised short papers presented were carefully reviewed and selected from many submissions. The papers are organized in topical sections on scientific and clinical workflows, ontologies and taxonomies, indexing and clustering, integration tools and systems, and integration techniques.

"For those, who will read this book, it will be obvious why to engage in scientific education of talented students, as early as possible to develop the critical minds or scientific method

judgments. There are multitudes of initiatives all around the world; and the number of these programs are steadily increasing. However, most of these initiatives are local programs connected to one or two motivated teachers or professors. They work in isolation, often struggling with the lack of resources and stay unrecognized to the general public. This situation was a trigger to establish an international network, called the Network of Youth Excellence (NYEX) in 2004. The members of this network are organizations with a proven devotion to promoting scientific research among young students (i.e. under the age of 21). All member organizations delegate a representative to the Board, which is the main decision making body in important issues. The Board selects the Executive Board by entrusting

sciences, one of the most dynamic and innovative fields of technology today. At the same time, the relationship between IP and the life sciences raises new public policy dilemmas. The Research Handbook on Intellectual Property and the Life Sciences comprises contributions by leading experts from academia and industry to provide in-depth analyses of key topics including pharmaceuticals, diagnostics and genes, plant innovations, stem cells, the role of competition law and access to medicines. The Research Handbook focuses on the relationship between IP and the life sciences in Europe and the United States, complemented by country-specific case studies on Australia, Brazil, China, India, Japan, Kenya, South Africa and Thailand to provide a truly international perspective.
