The next generation of political leaders will determine India's future. We know their names, but not what lies behind what we hear or see of them in the event/news-focussed coverage in newspapers and television channels. For instance, what moves them? Who inspires them? What are their passions and interests outside of politics? Where do they stand on some of India ' s most contentious political issues? Do they have any regrets about their political careers? How do they explain some of the inconsistencies in their words and actions? Have their career choices come with significant personal costs? This book provides a snapshot of contemporary Indian politics, and its future, through conversations with twenty of the country ' s most prominent next-generation politicians. It explores issues and tensions that lie at the heart of Indian politics and society. In doing so, it also challenges facile and sweeping generalizations about the next generation of political leaders, compelling us to consider Indian politicians as complex, thinking individuals with unique personalities, differing visions for India, and their place in history.
