Henry VIII ' s Reformation had begun an attack on sacred objects, such as saints' relics and shrines. Some sacred texts were also defaced or destroyed, especially those which venerated popes or St Thomas Becket, who had stood up to King Henry II. Many manuscripts and books in monastic libraries were trashed or dispersed during the dissolutions, although the antiquarian John Leland managed to collect and conserve a large number for the king.

However, Bernard's Reformation is a Reformation without politics: no contending principles nor personalities, no negotiations, no compromises, no muddles and no retreats—just a king who could do what he wanted. It was all Henry's work. Cranmer and Cromwell agreed with Henry, or at least did exactly as they were told.

Henry VIII and the Reformation Parliament transforms students into lords and commoners and members of the English parliament during the tumultuous years 1529-1536. The game illustrates the clash between four contending ideas: medieval Catholicism, Lutheranism, Renaissance humanism, and Machiavellian statecraft. Part of the " Reacting to the Past " series, this text consists of an elaborate game in which students are assigned roles that are informed by classic texts and set in particular moments of intellectual and social ferment. The game unfolds just as Cardinal Wolsey is dismissed as lord chancellor for failing to obtain the divorce King Henry VIII is seeking from Catherine of Aragon, and Thomas More is named as Wolsey ' s replacement.

When Henry VIII died in 1547 he left a church in England that had broken with Rome - but was it Protestant? The English Reformation was quite different in its methods, motivations and results to that taking place on the continent. This book: " examines the influences of continental reform on England " describes the divorce of Henry VIII and the break with Rome " discusses the political and religious consequences of the break with Rome " assesses the success of the Reformation up to 1547 " provides a clear guide to the main strands of historical thought on the topic.

Describes how King Henry VIII broke with the Roman Catholic Church and placed himself at the head of a new religion in England, and discusses the people and issues involved in the process.

Review: "In this groundbreaking new biography, G.W. Bernard offers a fresh portrait of one of England's most captivating queens. Through a wide-ranging forensic examination of sixteenth-century sources, Bernard reconsiders Boleyn's girlhood, her experience at the French court, the nature of her relationship with Henry and the authenticity of her evangelical sympathies. He depicts Anne Boleyn as a captivating, intelligent and highly sexual woman whose attractions Henry resisted for years until marriage could ensure legitimacy for their offspring." "He shows that it was Henry, not Anne, who developed the ideas that led to the break with Rome. And, most radically, he argues that the allegations of adultery that led to Anne's execution in the Tower could he close to the truth."--BOOK JACKET

Henry VIII changed the course of English life more completely than any monarch since the Conquest. In the portraits of Holbein, Henry Tudor stands proud as one of the most powerful figures in renaissance Europe. But is the portrait just a bluff? In his new book Derek Wilson explores the myths behind the image of the Tudor Lion. He was the monarch that delivered the Reformation to England yet Luther called him 'A fool, a liar and a damnable rotten worm'. As a young man he gained a reputation as an intellectual and fair prince yet he ruled the nation like a tyrant. He treated his subjects as cruelly as he treated his wives. Based on a wealth of new material and a life time's knowledge of the subject Derek Wilson exposes a new portrait of a much misunderstood King. PRAISE FOR DEREK WILSON'S PREVIOUS WORKS: The Uncrowned Kings of England: 'Stimulating and authoritative.' John Guy 'Masterly. [Wilson] has a deep understanding of...characters, reaching out across the centuries.' Sunday Times Hans Holbein: Portrait of an Unknown Man: 'Fascinating.' Sarah Bradford, Daily Telegraph 'Highly readable...The most accurate and vivid portrayal to date.' Alison Weir

The story of Elizabeth I's inner circle and the crucial human relationships which lay at the heart of her personal and political life. A vivid and often dramatic account, offering a deeper insight into Elizabeth's emotional and political conduct, and challenging many popular myths about her.

Henry VIII and the Reformation Parliament transforms students into English lords and commoners during the tumultuous years of 1529 to 1536. Cardinal Wolsey has just been dismissed as lord chancellor for failing to obtain an annulment of King Henry's marriage to Catherine of Aragon. Thomas More, the humanist author of Utopia, is named as Wolsey's replacement. More presides over Parliament, which the king has summoned in the hope that it somehow will find the means to invalidate his marriage, thus freeing him to marry his new love, Lady Anne Boleyn. Matters of state also apply, because Henry has no male heir to carry on the Tudor line, and Queen Catherine has passed her childbearing years. But will Parliament be content with solving the king's marital and dynastic problems? For there are some in Parliament who wish to use the royal divorce to disempower the English church, to sever its ties to papal Rome, and to change it doctrinally from Catholicism to Lutheranism. Others, however, oppose the divorce, oppose secular supremacy and independence from Rome, and oppose this heretical creed filtering in from the continent. More is their leader, for as long as he can survive. Thomas Cromwell, reputed a Machiavellian, leads the king's party. The king himself is ambivalent about the reformation unleashed by his "great matter," as the divorce campaign is called, and so the conservatives are loosed to prosecute reformers as heretics, while the reformers are loosed to prosecute conservatives as traitors. Meanwhile, outside England sits the greatest power in all of Europe, the Holy Roman Empire under King Charles V of Spain—who happens to be the nephew of Catherine! How will the emperor respond to this effort to put aside his aunt? At issue in the game is the clash of four contending ideas: traditionalist Christianity, reformist Protestantism, Renaissance humanism, and Machiavellian statecraft. Depending on the outcome of this contest, the modern nation-state will, or will not, be born.
